| | REQUEST FOR ADDITIONAL INFORMATION | | |
| Date | December 4, 2008 | December 18, 2008 | December 18, 2008 |
| | <p>YUCCA MOUNTAIN - REQUEST FOR ADDITIONAL INFORMATION – VOLUME 2, CHAPTER 2.1.1.1, 1st SET (DEPARTMENT OF ENERGY'S SAFETY ANALYSIS REPORT SECTIONS 1.1.10, 1.2.2, 1.1.5.2 and 1.1.5.3)</p> <p>Dear Mr. Williams:</p> <p>By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization. NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were emailed on November 19, 2008, and discussed in a telephone call with Mr. Syed Bokhari, et al., of your staff on December 4, 2008. During the call DOE requested clarification on RAI #1, #2, #4, #5 and #10, and NRC staff provided those clarifications. There were no revisions necessary to the wording of the RAI itself. However, several editorial corrections have been made in the enclosure regarding RAI #1, #3, #4 and #8. During this call DOE agreed to provide responses by January 12, 2008, to this 1st set of RAIs for the Safety Evaluation Report Volume 2, Chapter 2.1.1.1, Site Description as it Pertains to Preclosure Safety Analysis.</p> <p>Christian Jacobs, Senior Project Manager Project Management Branch Section B Division of High Level Waste Repository Safety Office of Nuclear Material Safety and Safeguards</p> | <p>YUCCA MOUNTAIN - REQUEST FOR ADDITIONAL INFORMATION RE: LICENSE APPLICATION (SAFETY ANALYSIS REPORT SECTION 5.1)</p> <p>Dear Mr. Williams:</p> <p>By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization. NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. The question in the enclosed request for additional information (RAI) was emailed on December 11, 2008, and discussed in a telephone call with Ms. Deborah Barr, et al., of your staff on December 16, 2008.</p> <p>The enclosed RAI replaces a prior version sent on November 26, 2008, and discussed in a telephone call with Ms. Deborah Barr, et al., on December 9, 2008. Following the December 9, 2008, call, NRC modified its original question to ensure an efficient response from DOE. As noted in the December 16, 2008, telephone call, this risk-informed phased approach does not preclude the NRC from requesting further information. DOE agreed to provide its response by February 13, 2009.</p> <p>Brian Benney, Senior Project Manager Project Management Branch Section B Division of High Level Waste Repository Safety Office of Nuclear Material Safety and Safeguards</p> | <p>LICENSE APPLICATION (SAFETY ANALYSIS REPORT SECTION 2.2)</p> <p>Dear Mr. Williams:</p> <p>By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization. NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were e-mailed on December 2, 2008, and discussed in a telephone call with Ms Corinne Macaluso, et al., of your staff on December 15, 2008. During the discussion, DOE agreed to provide a response by January 23, 2009.</p> <p>John H. (Jack) Sulima, Project Manager Project Management Branch Section B Division of High Level Waste Repository Safety Office of Nuclear Material Safety and Safeguards</p> |
| Date | December 22, 2008 | December 22, 2008 | |
| | <p>YUCCA MOUNTAIN - REQUEST FOR ADDITIONAL INFORMATION RE: LICENSE APPLICATION (SAFETY ANALYSIS REPORT SECTION 2.1)</p> <p>Dear Mr. Williams:</p> <p>By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization. NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were e-mailed on December 2, 2008, and discussed in a telephone call with Ms Corinne Macaluso, et al., of your staff on December 15, 2008. During the discussion, DOE agreed to provide a response by January 23, 2009.</p> | <p>YUCCA MOUNTAIN - REQUEST FOR ADDITIONAL INFORMATION – VOLUME 2, CHAPTER 2.1.1.1, 2nd SET (DEPARTMENT OF ENERGY'S SAFETY ANALYSIS REPORT SECTIONS 1.1.4, 1.1.5, 1.3.4)</p> <p>Dear Mr. Williams:</p> <p>By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization. NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were e-mailed on December 2, 2008, and discussed in a telephone call with Ms Corinne Macaluso, et al., of your staff on December 15, 2008. During the discussion, DOE agreed to provide a response by January 23, 2009.</p> | <p>However, NRC understands that DOE has divided the response to RAI #1 into three parts (a, b, c) and that part b will not be provided by the due date. DOE is expected to explain in its response to RAI #1 why the entire response cannot be provided by February 4, 2009, and to indicate when the entire response will be provided to NRC.</p> |

|----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <p>tional information (RAI) were e-mailed on December 11, 2008, and discussed in a telephone call with Ms Corinne Macaluso, et al., of your staff on December 18, 2008. During the discussion, NRC agreed to modify RAI number 6, and DOE agreed to provide responses to all RAIs by February 6, 2009.</p> <p>John H. (Jack) Sulima, Project Manager Project Management Branch Section B Division of High Level Waste Repository Safety Office of Nuclear Material Safety and Safeguards</p> | <p>information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were emailed on December 16, 2008, and discussed in a telephone call with Mr. Syed Bokhari, et al., of your staff on December 22, 2008. During the call DOE requested clarification on RAI # 2, #5 and # 7. NRC agreed to make the following changes: RAI #2 – change “data” to “observations”, RAI #5 – change “lower” to “smaller”, RAI #7 – NRC to provide specific reference to existing literature in the basis section of this RAI. These changes have been incorporated in the enclosed RAI. During this call DOE agreed to provide responses by February 4, 2009, to this 2nd set of RAIs for the Safety Evaluation Report Volume 2, Chapter 2.1.1.1, Site Description as it Pertains to Preclosure Safety Analysis. (continued in next column)</p> | |
